Need Help: Call: [1.855 MA HIway \(624-4929\) option 2](tel:1855644929), E-mail: MassHIwaySupport@state.ma.us

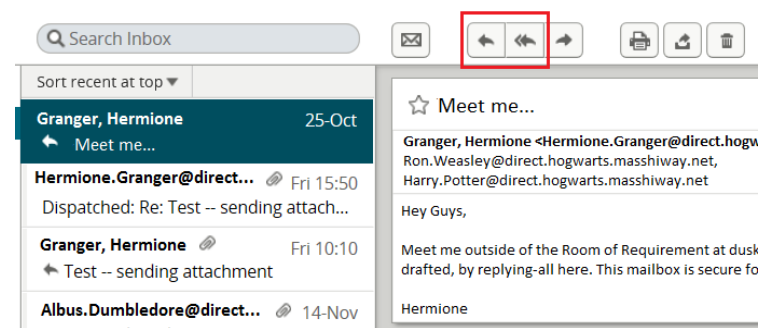

Reading Incoming Mail

- From the Main Mailbox, you will default to the **Inbox**, which displays the list of messages.
 - At the top of this list, you can toggle the means in which the messages sort, by clicking on the downward arrow next to **Sort...**
 - You can also use the **Search Inbox** function to find a specific message. Click into the field and type any keyword such as a subject or sender, and hit **Enter** on your keyboard to find your message.
- Select the message you would like in the list.
- The message will then display in the reading pane to the far right of the screen.

Replying to Message

- From the Main Mailbox, select the message from the list of messages.
- Click on the single arrow facing left to **Reply** or the double arrows facing left to **Reply-all**.
- This will launch a new message window called **Reply Message** or **Reply-all Message**, which works similarly to the *New Message* window, but also contains the quoted text from the message you received, in the *Message* field.
- Compose your response in the **Message** field.
- Click **Send**.

Creating a New Message

- From the Main Mailbox, click on the envelope icon (✉), to launch a new tab in your browser called **New Message**.
- Search for a recipient for your message in the **To** field, or click on **Show Provider Search** to open the advance search function.
- Once you find the individual, you can **Add To Address Book**, add them to the **To** field of your message, or add them to the **CC** field of your message.

Do not type or paste an address into the "To" field unless you are sure it is a secure Direct Address.

- Add a **Subject** to the message and complete the **Message** field.
- Add any secure patient data to the **Attachments** field, by clicking **Browse** (toward the bottom, under the *Message* field) to search your computer's hard drive for the desired documentation to share.

Be sure to remove sensitive information from your computer's hard drive after sending a message through the Mass Hiway.

- You can come back to your message to send later, and click on **Save Draft**, or click on **Send** once you have indicated the recipients and completed the message.
